Dear ?,

We live in Hereford, AZ (just south of and abutting Sierra Vista) and cannot receive your stations out of Sierra Vista. We can carry the stations on the car radio up to 1/2 mile from home then they are interrupted by a stronger Mexican station. We currently are able to receive thru the COX cable, however, they are going digital within a month and will no longer be able to provide us with this service. Is there any plan to raise the power of the Sierra Vista station? If not, is there a simple solution short of a big antenna on the roof or backyard. (Our community has CC&Rs that ban them).

We need NPR!!!!

Thanks

I have a question: Are you currently able to listen to both KUAT-FM (classical) and KUAZ-FM (jazz and NPR news) on Cox Cable in Hereford?

Hi, we are only getting KUAT-FM. The other was lost a while back. They are making a lot of changes and we fear the music will soon be gone as well.
