E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves a safety zone which is limited in size and duration. Normally such actions are categorically excluded from further review under paragraph 34(g) of Figure 2–1 of Commandant Instruction M16475.1D. A preliminary Record of Environmental Consideration supporting this determination is available in the docket where indicated under ADDRESSES. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the FOR FURTHER INFORMATION CONTACT section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places, or vessels.

Proceedings of the Copyright Royalty Board; Violation of Standards of Conduct

SUPPLEMENTARY INFORMATION: On April 20, 2017, the Copyright Royalty Judges (Judges) published a notice in the Federal Register seeking comments on a proposed rule that would authorize the Judges to bar, either temporarily or permanently, certain individuals and entities from participating in proceedings before the Judges. In response to the notice, the Judges received five comments, including two joint comments, from people and entities that regularly participate in proceedings before the Judges. The comments and the proposal are available on the CRB Web site and in eCRB.

While some of the comments were supportive of the proposal or certain aspects of it, others were critical and raised a number of issues with the proposal, including the scope of the proposal, potential abuses of the proposed provisions, the Constitutionality of some of the proposed provisions, and whether the proposal is even necessary. The Judges seek reply comments responding directly to issues that commenters raised regarding the proposal. While the Judges will review and consider all comments they receive on this proposal, they request that commenters limit their comments at this point to issues that other commenters raised in the initial round of comments, including ways to address criticisms that some commenters raised with respect to the proposal. Some commenters that criticized the proposal suggested alternative language that might remedy perceived shortfalls in the Judges’ proposal. The Judges request comments on those proposals, or welcome alternative suggestions the Judges might adopt to address those perceived shortfalls, including the pros and cons of choosing any proposed alternative approach. In light of some of the negative comments, the Judges also seek comment on whether, on balance, the remedies currently available to the Judges for addressing ethical lapses of participants and counsel are adequate or preferable to the remedial rule the Judges proposed. In particular, the Judges seek detailed comments regarding the incidents to which the Judges referred in the notice proposing the provision (or others that commenters are aware of to which the Judges did not refer) and how remedies currently available were used to address those incidents and whether or not the extant remedies (e.g., discovery sanctions or loss of the presumption of validity regarding claims) adequately addressed those incidents or whether gaps in the current remedial framework might lead to future incidents that could compromise public confidence in the CRB ratemaking and royalty distribution system.

Solicitation of Comments

The Judges seek reply comments on the proposed new rule that respond to comments that the Judges received in response to the initial notice of proposed rulemaking.

How To Submit Comments

Interested members of the public must submit comments to only one of the following addresses. If not submitting online, commenters must submit an original of their comments, five paper copies, and an electronic version in searchable PDF format on a CD.
